CELENIO

The Unique Wood Floor

*Your Eyes Tell You
It's **STONE** ...
But Your Touch
Reveals
That It's **WOOD**.*

Our passion for wood and our curiosity for the unusual has led to the unique innovation CELENIO – the special wood floor. The aim was to combine the advantages of wood with the look of stone tiles. An important milestone on the way to reaching our goal was the development of the novel Harolith material – a wood mixture from which we create a wood floor with the look of stone, slate, textile and waves. The result is more than impressive: CELENIO opens up previously unimaginable design possibilities and offers you comfortable advantages.

Comfortable ADVANTAGES for Exclusive Living.

Natural

Wonderfully warm, natural and vibrant – for an exciting, aesthetic ambience.

No wonder, because CELENIO is based on natural wood: special wood fibres and different natural resins are combined to create our innovative Harolith wood-based material.

Warm to the touch

While stone tiles are cool, CELENIO adds warmth, comfort and cosiness. Anyone walking on the floor for the first time is baffled: It looks like tile, but it's so nice and warm. After all, CELENIO is made of wood – only in a different form.

Highly break-resistant

Stone tiles are cold, noisy and hard, and they break very easily. CELENIO is different in all these respects. The Harolith material ensures high resilience and thus achieves a break resistance that tiles can only dream of.

Special textures

HARO CELENIO is a winning combination of practicality (break resistant, easy to install), comfort and design. Emulating the look of natural materials like stone, slate and textiles, and introducing abstract graphic textures like the wave design, our somewhat different wood floor takes interior design to a higher level.

Easy to install

TOP CONNECT INSTALLATION:

The Top Connect installation system is probably the easiest in the world. All you need to do is prepare the subfloor according to the installation requirements for parquet. Then CELENIO with Top Connect is extremely quick and easy to install – simple and safe with no tools required. CELENIO is only suitable for residential applications and has been approved for floating installation in accordance with the laying instructions.

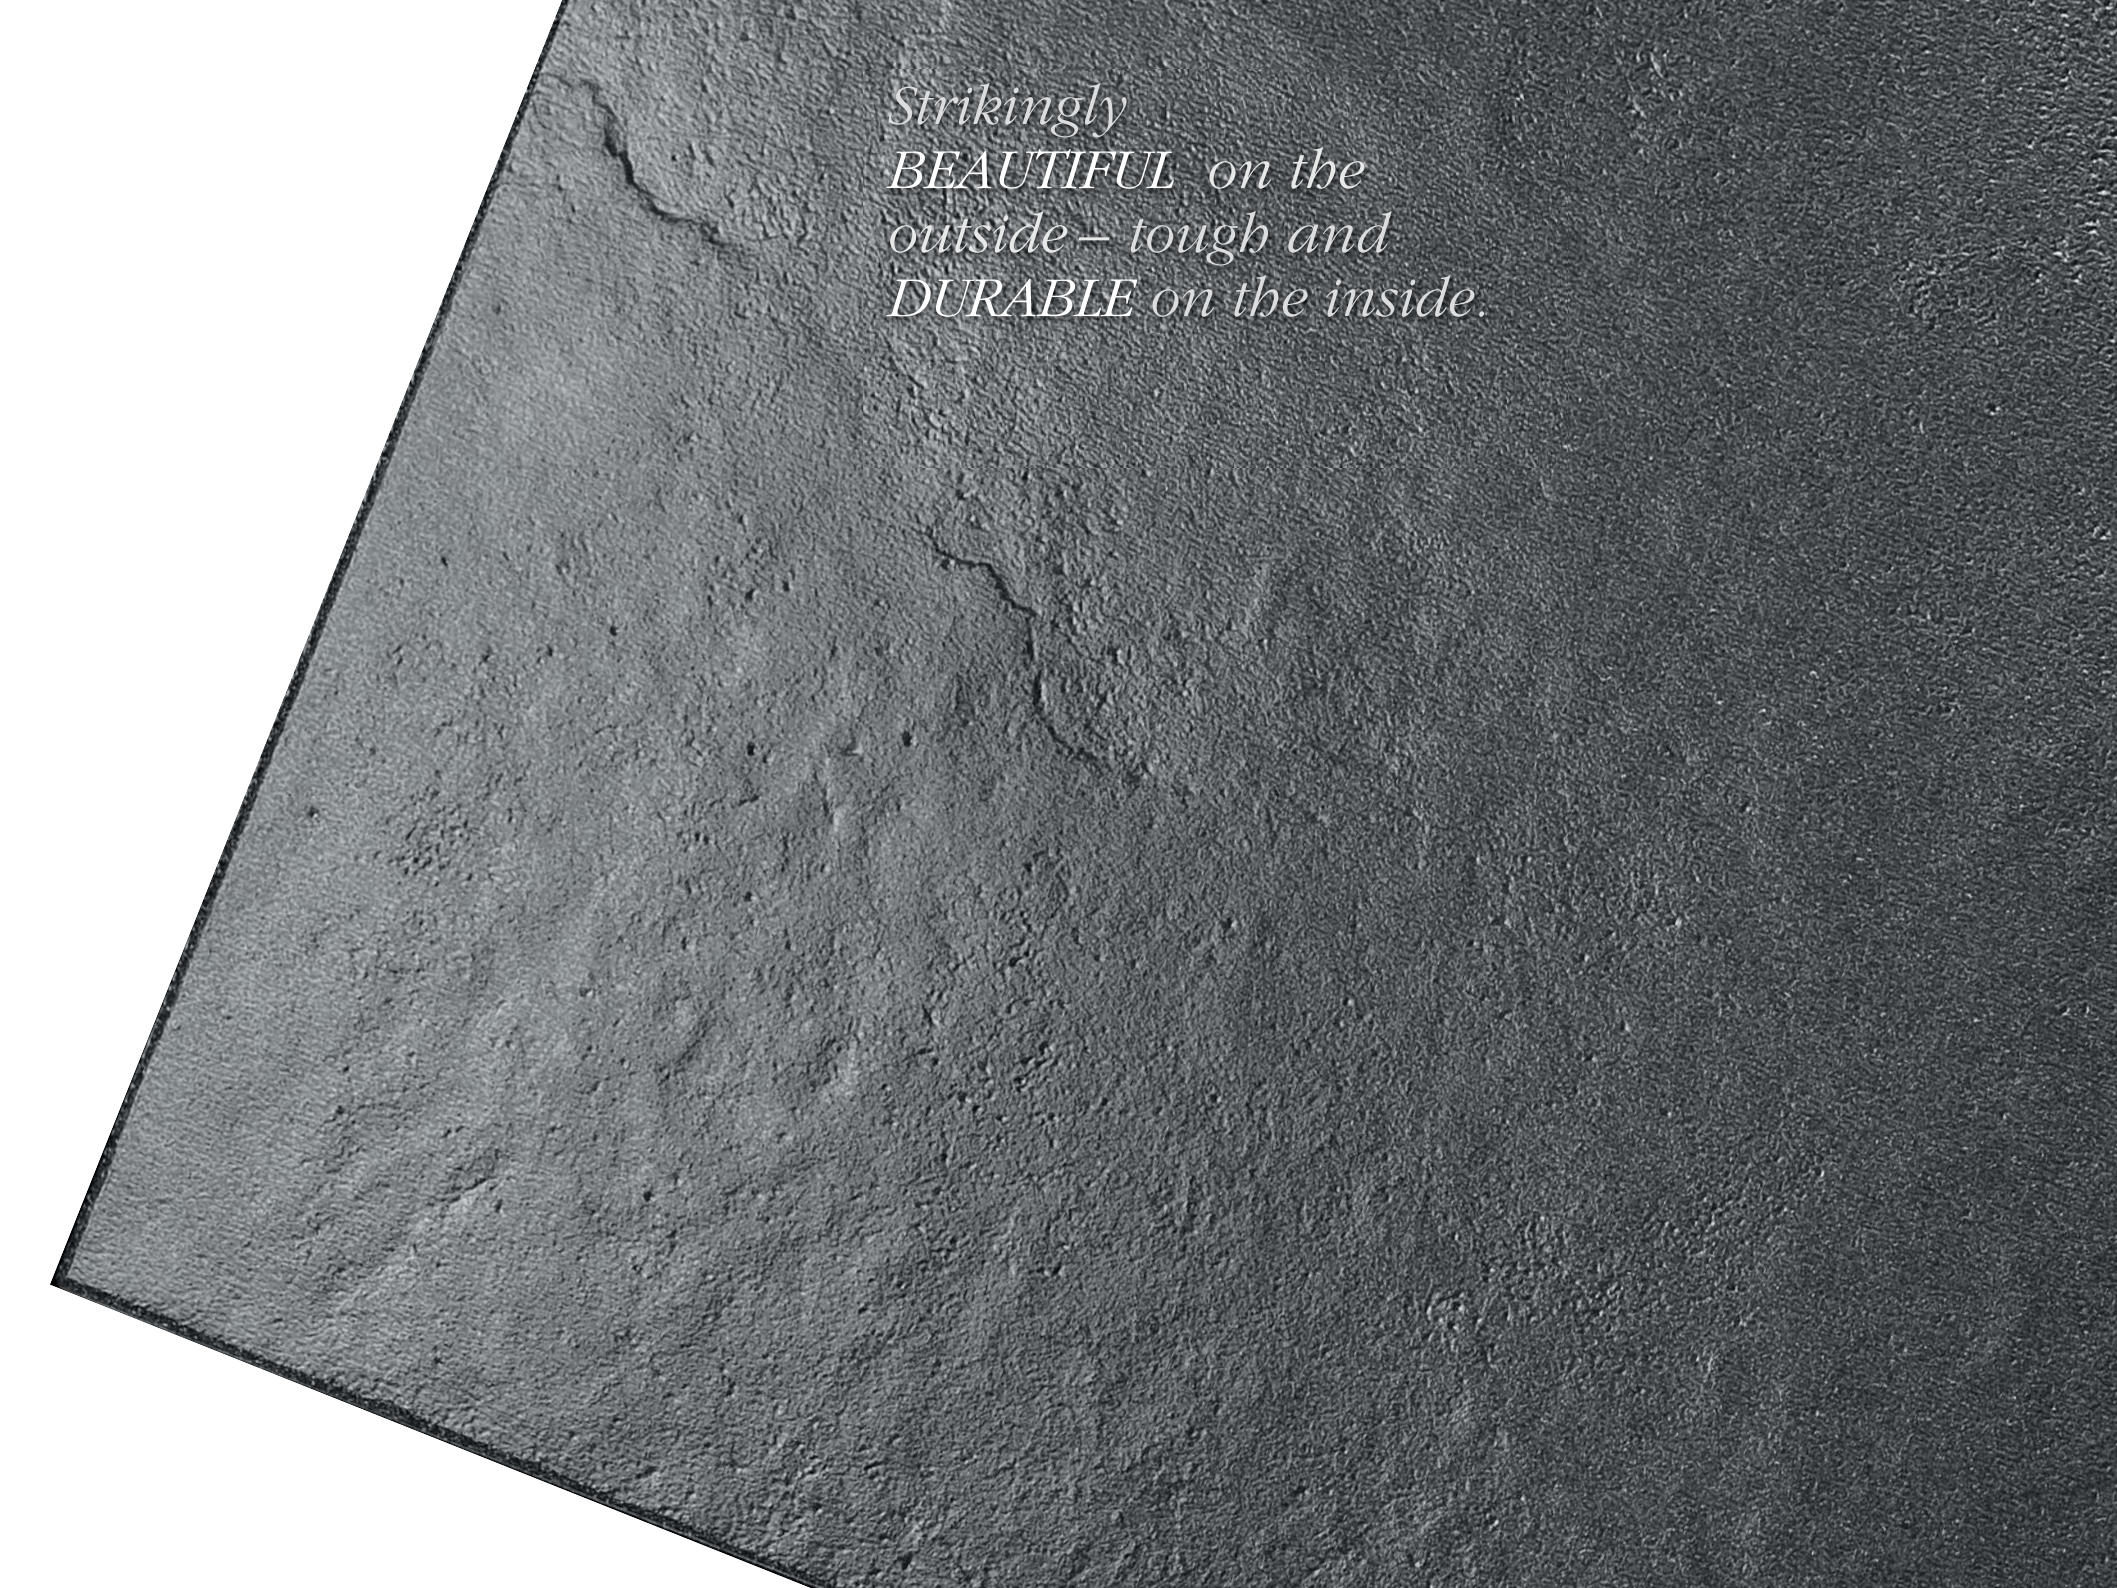

TOP CONNECT WITH COMFORTEC INSTALLATION:

CELENIO is also available with the ComforTec installation system. The system is one of HARO's latest innovations. It combines the advantages of glue-down installation (comfort) and floating installation (speed) into one product. Self-adhesive strips are attached to the back of each CELENIO board: simply peel back, press on – finished.

Effortless to maintain

Wood floors are generally easy to maintain, and CELENIO is no exception. Dry cleaning with a mop, broom or vacuum cleaner is generally all you need to do. For damp cleaning we recommend our specially formulated cleaning product for all types of natural floors: clean & green natural.

*Strikingly
BEAUTIFUL on the
outside – tough and
DURABLE on the inside.*

ATRIUM

Country-Style Slate Design

Modern interior design is unthinkable without slate. Beauty, elegance and the timeless character of its pleasant colour, surface and texture add that special something to any room. What's even better is that it now comes in a unique, warm wood material instead of cold stone.

CELENIO ATRIUM ANTHRAZIT

CELENIO ATRIUM PLATIN

ARDESIA

Elegant Slate Design

A calm appearance paired with trendy colours and an unusual texture impress with fascinating elegance. CELENIO ARDESIA is the perfect complement to a stylish interior design. With its warm material and easy installation, this wood floor is convincing in every respect.

INSTALLATION ON THE WALL

The new form of wood for a new form of wall decoration: Elegant and yet practical, CELENIO provides an impressive background for the kitchen and all other living areas around the house. Bringing extravagant individuality to your home has never been so easy.

Design element of high practical value: with the Deco Shelf system CELENIO can be easily mounted to the wall.

Purists fix CELENIO directly to the wall. There the natural, extravagant appearance is displayed to maximum effect.
Please follow the special installation instructions for wall mounting.

At a Glance

Are you looking for innovative and unusual floor solutions to create your own unique interior design? You've come to the right place! Our CELENIO range offers the perfect choice for anyone with a strong sense of style. Be inspired and design your living space exactly as you would like it to be.

SOUND ABSORBING EFFECT

CELENIO combined with ComforTec or the Silent Pro luxury insulation layer ensures a pleasant acoustic environment by minimising both footfall and room sound.

APPLICATION AREAS

CELENIO is particularly well suited for use in all living areas around the house. If CELENIO is to be installed in the kitchen and will be subject to uneven loads, e.g. due to heavy kitchen units, please contact our technical department prior to installation at info@haro.com

WOOD PRODUCT

As a product made of wood, CELENIO offers the warmth and typical characteristics of this natural material. This also includes colour changes under the influence of UV light, which occur in every wood floor. A CELENIO surface has the same properties as the surface of factory prefinished parquet. When installing CELENIO, the same rules apply as for parquet.

Technical Details*

	ATRIUM, ATHOS	PAPYRUS, ARDESIA, ATTIKA, DUNAS
